

**Go on to the river -
the river that gives you life..
Go on to the river -
let's feel the ripples in the water
The sounds of the flow make common
sense.**

**The songs are modest and free.
Let them be for humanity.**

**Go on to the river,
the river that gives you life.
Go through the river, to find your life.
Go with the river, to live your life.**

I just go, you know..
